

ZOHAIB RAHIM

Computer Science Student | Data Analytics & Automation | Full-Stack Engineering
(778) 847-2562 | zrahim@unbc.ca | linkedin.com/in/zohaibrahim | github.com/zohaibrahim | roshtay.com

PROFESSIONAL SUMMARY

Final-year Computer Science co-op student (UNBC, April 2027, full-time eligible) with production-level experience in Power BI analytics, Excel automation, and process engineering at PHSA and Aga Khan University. Reduced scheduling errors by 40% at PHSA and eliminated paper-based data collection across 20+ schools in 10 countries at AKU, combining data-driven decision support with full-stack development and security scripting. 1st Place, Business Technology Management, JDC West 2026.

CORE SKILLS

Analytics & BI: Power BI (DAX, KPI dashboards, 5-yr forecasting, trend analysis), Excel (advanced automation, pivot tables, alerts), SQL, MS Access
Engineering & Automation: Python, PowerShell, Java, C++, TypeScript, Node.js, Angular, PostgreSQL, Express.js, Power Automate, GitHub Actions CI/CD
Cloud & Platforms: Microsoft Azure, SharePoint, Microsoft Fabric, Microsoft 365, Microsoft Forms, Vercel, Git, Postman
Professional: Project Management, Business Analysis, SOP Development, Stakeholder Reporting, Process Automation, Cross-functional Collaboration

PROFESSIONAL EXPERIENCE

Roshtay – Web & AI Solutions – Remote Apr 2026 – Present
Founder

- Launched and scaled a web & AI solutions studio with 3 live client applications, by executing a structured multi-tool workflow spanning research, design, UI, development, and GitHub/Vercel CI/CD deployment.

Aga Khan University – Remote – Geneva Nov 2025 – Mar 2026
ECD Programme Innovation & Digital Solutions Intern

- Eliminated paper-based data collection across 20+ schools in 10 countries, by designing a structured digital assessment database with Microsoft Forms and Power Automate multi-level approval workflows.
- Improved platform accessibility for 20+ international schools, by leading an end-to-end SharePoint redesign of navigation architecture, information hierarchy, and stakeholder workflows.
- Delivered zero-dependency platform continuity post-handover, by producing SOPs that enable non-technical moderators to independently operate all platform functions.

Provincial Health Services Authority (PHSA) – Northern BC – Hybrid Sep 2024 – Apr 2025
Project Manager 1 | Co-op

- Reduced manual reporting cycles by 30% and accelerated decision-making by 25%, by engineering a production Power BI dashboard tracking inventory across 8 Northern BC cities with DAX KPIs, YoY comparisons, and a 5-year forecast model.
- Cut scheduling errors by 40% and improved operational efficiency by 30%, by designing a fully automated weekly Excel scheduling system with dynamic date headers, gap counters, and alert triggers for 20+ employees.
- Achieved 100% documentation compliance across all operational roles, by validating 26 SOPs against PHSA standards through hands-on testing and cross-team coordination.

University of Northern British Columbia – Prince George, BC Sep 2023 – Apr 2025
Student Assistant & Course Marker

- Maintained 97% grading accuracy across 200+ students, by validating MS Access and Sage Accounting system images before deployment and coordinating IT resolution for flagged issues.

SELECTED PROJECTS

- JobTrackr – Application Tracking Platform** (PostgreSQL, Node.js, Express, Angular/TypeScript, GitHub Actions) – Co-developed a full-stack, enterprise-ready tracking platform with an AI pipeline and CI/CD; led system integration, architecture planning, and testing strategy.
- Credit Card Fraud Detection** (Python, Scikit-learn, TensorFlow, SMOTE) – Built Logistic Regression and MLP classifiers on an imbalanced 284,807-transaction Kaggle dataset; led precision-recall trade-off analysis identifying MLP as best-performing with fewest false positives.
- Canadian Crime Statistics Dashboard** (Power BI, DAX, Excel) – Built an interactive 4-level geographic drill-down (Country to Municipality) with custom DAX measures (crime per capita, clearance rate), a 10-year forecast, and demographic breakdowns.

LEADERSHIP & RECOGNITION

- 1st Place, Business Technology Management, JDC West 2026** – UNBC's first BTM podium in 19 years; case theme: post-acquisition IT modernization, delivering a hybrid system upgrade within budget and a structured employee change-management plan.
- Fundraised \$56,000+ (2025–26) for the Spirit of the North Healthcare Foundation as part of the JDC West delegation; served as Director of CHAD and Business Technology Delegate.

EDUCATION

University of Northern British Columbia – Prince George, BC Expected April 2027
Bachelor of Science, Computer Science | Co-op Program | Minors: Management Information Systems, Philosophy
Relevant Coursework: Data Structures, Operating Systems, Algorithm Analysis, Concurrent & Distributed Programming, Database Systems, Business Intelligence, Data Mining, Applied Machine Learning, Software Engineering, Computer Organization & Architecture

CERTIFICATIONS

TryHackMe: Active Directory Basics (2026) | Microsoft Data Fundamentals | Microsoft PL-300 Power BI Data Analyst (In Progress)
